

Free Public Education Seminar

Advances in Cancer Screening & Treatment:

Circulating Tumour Cell (CTC) Testing & Beyond

Wednesday 18 March, 6.30pm - 7.30pm
Robina Community Centre, Gold Coast

Book online: www.niim.com.au/cancerseminar

Enquiries: karinried@niim.com.au

Join us for this special seminar highlighting the latest advances in cancer screening, cancer monitoring, and treatment.

EVENT PROGRAM

Presentations by A/Prof Karin Ried & Dr Taufiq Binjemain

- Highly sensitive cancer screening test may allow for early detection of cancer
- Improved prostate cancer screening test
- Latest insights on Cancer Patient Care at the new NIIM Gold Coast

A/Prof Karin Ried PhD MSc GDPH Cert Integr Med (QLD)

Associate Professor Dr Karin Ried is Director of Research at the National Institute of Integrative Medicine (NIIM), and A/Prof at Torrens University & The University of Adelaide. Karin has more than 20 years' experience in medical and primary health research, leading several clinical trials on nutritional medicine, cardiovascular, chronic diseases and cancer.

Karin is Head of the **NIIM CTC Cancer Lab**, which established the validated cytology-based highly accurate cancer screening ISET-CTC methodology (Rarecells, France). "To date as part of our Clinical Trial, we have undertaken over 2000 CTC tests. The latest breakthrough has been in the screening for prostate cancer."
